PREFACE

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Alhamdulillah, all praise and gratitude to Allah SWT with His guidance The Brunei Darussalam Agriculture and Agrifood Statistics in Brief 2024 book has successfully been published. This book main aim is as reference material for relevant parties as well as an expression of achievements of the agriculture and agrifood sector yearly. To share the annual up to date statistical data such as on production, land areas developed, numbers of participating farmers and other related information. It is also hoped that this book will also be able to be used as incentive for all of us, including farmers especially youths to continue to commit working harder so that the production from this sector will continue to grow and increase in the future, and contribute significantly in supporting efforts towards increasing and diversifying the country's economic resources.

Finally, I would like to express my deepest appreciation and thanks to all those involved in contributing energy and ideas to ensure the publication of this book. May all your sincere contribution will be rewarded by Allah SWT Amin.

The Department will continue to improve this publication from time to time in line with the increasing demand and current statistical development. Comments and suggestions for further improvements on the contents and tabulation specifications in this publication are most welcome.

AWANG ABUZAR BIN HAJI MOHD TAHIR

Acting Director

Department of Agriculture and Agrifood
Ministry of Primary Resources and Tourism
Brunei Darussalam

AGRICULTURE AT A GLANCE

One of the targets of Brunei Vision 2035 is to make Brunei Darussalam a country with a dynamic and sustainable economy. As such, the agriculture and agrifood sector is one of the main sectors that can contribute to the country's diversification efforts and growth of the Gross Domestic Product (GDP).

In ensuring the security of food supply and enhancement of the economic contribution to the Gross Domestic Product (GDP), Brunei Darussalam places much importance in agriculture and agrifood development. In this respect, Department of Agriculture and Agrifood (DoAA) actively promotes the development of various agricultural commodities as well as facilitating the outsourcing of raw materials and food supply.

The gross output value of the agriculture and agrifood sector for the period of 2020 to 2024 has seen an increased by 20.9 per cent, that is, an increase of B\$473.84 million in 2020 to B\$573.05 million in 2024.

The major contribution comes from the Livestock Industry, which account for about 55.9 per cent of the total gross output of the agriculture and agrifood sector, followed by Agrifood Industry about 30.1 per cent and Crop Industry about 14.0 per cent.

It is hoped that the growth outlook of the agriculture and agrifood sector in 2024 onwards will continue to grow. DoAA will continue to ensure that the growth of this sector will remain positive by ensuring strategies and initiatives to boost production and productivity continue to be implemented, such as through the Agriculture Pilot Project, Contract Farming for youth, Business Expansion Program, Local Market Facilitation, Export Market Facilitation, as well as opening up of new areas for crops, livestock and paddy production.

THE DEPARTMENT OF AGRICULTURE AND AGRIFOOD

Agriculture and Agrifood are the major source of the primary resources and manufacturing sectors which contributes to the growth of the Gross Domestic Product (GDP), Export and Economic Diversification.

Aligned with the Ministry of Primary Resources and Tourism's Strategic Plan 2024 - 2029, it is expected that Agricultural productions will increase exponentially whereby the Livestock and Crop Industry will be the main contributor followed by the increase in Agrifood Processing Industry. In effort to further develop the agriculture sector, especially in livestock and crop production, the DOAA is encouraging the involvement of local and foreign investors and increasing access to local and export market.

The strategic thrust of the Department of Agriculture and Agrifood are:-

Growth

"....in the last few years, the growth of Gross Domestic Product (GDP) has slowed down which requires us to double domestic production, especially in the non-oil and gas sector".

(Excerpt from His Majesty's New Year 2016 Titah)

Export

"It is important to remember that having a small domestic market is not an excuse for slow production growth and every company, whether private or government-owned, should be capable of trading/exporting their products and services outside the country." .

(Excerpt from His Majesty's New Year 2016 Titah)

Productivity

"....the country's economic growth can be stimulated by giving priority to research and the use of latest technology".

(Excerpt from His Majesty's New Year 2016 Titah)

Sustainable

MPRT will also ensure that in the implementation of strategies and programs to increase the production of agriculture, fisheries, forestry and tourism, using other measures such as public-private partnership (PPP) and foreign direct investments (FDI), in order to reduce reliance on Government.

VISION

Towards Increasing Production on Agriculture and Agrifood Based Industries through Increasing Productivity and High Technology Oriented for Domestic and Export Market

MISSION

To Stimulate The Growth of Agriculture and Agrifood-Based Industry through High-Technology and Export, Encouraging Progressive Involvement of Local and Foreign Direct Investment, while focusing on High-Value Production including the Primary and Processing Industries.
